Price is about to turn down. Where will it pause and where will it reverse? Answers on the next page.
The blue circles aligned horizontally highlight support or resistance areas that occurred to the right of the February price peak. The red lines show where price reversed moving down (support) and the green lines show peaks to the right of the February high.

Here's another chart. Price is about to rise. Where will it stop? Answers on the next page.
This is one of those cases where the stock does the unexpected – the gap up on huge volume in late July. Red lines show where price found support moving lower; green are areas of overhead resistance to the right of the blue line. The blue and green circles align with congestions zones reflected across the blue line.

The end
